## Notes:

- Prices are in UK Pounds Sterling and represent one period of 12 months from publication.
- These prices include Budgerigarworld.com's FREE advertisement design service. You tell us what you want in your advertisement and we will design and create it for you!
- Animated advertisements. These are advertisements whose content changes - i.e. moves, rotates etc. This contrasts with the "Text only" and "Text + Image" ones whose content is static. Animated advertisements can display much more information to a visitor than their Text only or Text and Image counterparts, and are priced accordingly.
